Citigroup Funding Inc. Stock Market Upturn Notes Based Upon the Dow Jones EURO STOXX 50 Index	SOG	17311G441

Information on the Notes

Citigroup Funding Inc. (the "Issuer") has issued Stock Market Upturn Notes ("Notes") based upon the Dow Jones EURO STOXX 50 Index (the "Index"). The Notes were priced at \$10 each and mature on February 6, 2009.

At maturity, for each \$10 Note, investors will receive \$10 plus the Note Return Amount. The Note Return Amount is calculated as follows:

(1) If the Equity Return Percentage is positive:

\$10 X Equity Return Percentage X 300%

(2) If the Equity Return Percentage is zero, \$0.

(3) If the Equity Return Percentage is negative:

\$10 X Equity Return Percentage (which will be negative)

The total amount payable at maturity, including principal, cannot exceed \$12.00 per Note.

The Equity Return Percentage will be calculated as follows:

$$\frac{\text{Index Ending Value} - \text{Index Starting Value}}{\text{Index Starting Value}}$$

The Index Starting Value is 4,412.12. The Index Ending Value will be the closing value of the Index on the Valuation Date. The Valuation Date will be three days before the maturity date.

Investors should note that the underlying securities are not involved in the subject offering and have no obligation with respect to the Notes whatsoever, including any obligations with respect to the principal amount to be paid at maturity, or to take the needs of the Issuer or

holders of the Notes into consideration. The Notes are a series of unsecured debt issued by Citigroup Funding Inc. and will be issued in book entry form.

Since all payments which may be due to holders of Notes are the sole responsibility of the Issuer, it is the credit of Citigroup Funding Inc. which stands behind the securities.

It is expected that the market value of the Notes will depend substantially on the value of the Index and may be affected by a number of other interrelated factors including, among other things, the general level of interest rates, the volatility of the Index, the time remaining to maturity, the dividend yield of the stocks comprising the Index, and the credit ratings of the Issuer.

The Trustee for the securities is The Bank of New York.
