Information on the Notes

Merrill Lynch & Co., Inc. (the "Issuer") has issued Accelerated Return Bear Market Notes ("Notes") linked to the Russell 2000 Index (the "Index"). The Notes were priced at \$10 each and mature on November 25, 2009.

As more fully set forth in the Prospectus Supplement, each \$10 principal amount of the securities will be deemed a "Unit" for purposes of trading and transfer. There will be no payments or redemptions prior to the maturity date. The Notes are designed for investors who believe that the level of the Index will decrease in value throughout the term of the Notes. The Notes are not principal protected and investors must accept that the return may be less than the \$10 principal amount.

At maturity, investors will receive:

(1) If the Ending Value is less than or equal to the Starting Value of the Index, investors will receive:

$$\$10 + [\$50 * (\text{Starting Value} - \text{Ending Value}) / \text{Starting Value}]$$

Subject to the maximum payment at maturity of \$12.90.

(2) If the Ending Value is greater than the Starting Value, but equal to or less than the Threshold Value, then investors will receive:

\$10

(3) If the Ending Value is greater than the Starting Value, then investors will receive the greater of:

- a) \$0
- b) $\$10 - [\$10 * ((\text{Ending Value} - \text{Threshold Value}) / \text{Starting Value})]$

The Starting Value of the Index equals: 595.51. The Threshold Value equals: 655.50. The Ending Value of the Index will be determined close to the maturity date.

Please see the prospectus for the Notes for more details regarding the calculations.

It is expected that the market value of the Notes will depend substantially on the value of the Index and may be affected by a number of other interrelated factors including, among other things: the general level of interest rates, the volatility of the Index, the time remaining to maturity, the dividend yield of the stocks comprising the Index, and the credit ratings of the Issuer.
