Information on the Notes

AB Svensk Exportkredit (the "Issuer") has issued Accelerated Return Notes ("Notes") linked to the Russell 2000 Index (the "Index"). The Notes were priced at \$10 each and mature on April 6, 2009. The Notes are not principal protected.

As more fully set forth in the Prospectus Supplement, each \$10 principal amount of the Notes will be deemed a "Unit" for purposes of trading and transfer. There will be no payments or redemptions prior to the maturity date.

The Notes provide full exposure to any downside movement in the Index and triple exposure to any upside movement in the Index, subject to a maximum payment at maturity of \$12.775 per Note.

At maturity, investors will receive:

(1) If the Ending Value is less than or equal to the Starting Value:

$$\$10 \times (\text{Ending Value} / \text{Starting Value})$$

(2) If the Ending Value is greater than the Starting Value:

$$\$10 + [\$30 \times ((\text{Ending Value} - \text{Starting Value}) / \text{Starting Value})]$$

Payment at maturity is subject to a maximum of \$12.775 per Note.

The Starting Value for the Index is 697.43. The Ending Value for the Index will be calculated shortly before the maturity date. Investors should refer to the prospectus for the Notes for more information on the calculation.

It is expected that the market value of the Notes will depend substantially on the value of the Index and may be affected by a number of other interrelated factors including, among other

things: the general level of interest rates, the volatility of the Index, the time remaining to maturity, the dividend yield of the stocks comprising the Index, and the credit ratings of the Issuer.

The Trustee for the securities is The Bank of New York.
