FaithShares Methodist Values Fund	FMV	30605Q504

### Background Information on the Funds

The FaithShares Trust (the "Trust") is a management investment company registered under the Investment Company Act of 1940, as amended (the "1940 Act"). The Trust consists of several exchange-traded funds (each, a "Fund" and collectively, the "Funds"). This circular refers only to the Funds listed above. The shares of each of the Funds listed above are referred to herein as "Shares." FaithShares Advisors, LLC (the "Adviser") serves as the investment adviser for the Funds.

The Catholic Values Fund employs a "passive management" investment strategy designed to track the total return performance of the FaithShares Catholic Values Index (the "CV Index" or "Index"), a custom index developed by FTSE KLD. The CV Index is designed to measure the performance of U.S. large capitalization companies that operate in accordance with the U.S. Conference of Catholic Bishops' ("USCCB") Socially Responsible Investment Guidelines ("SRI Guidelines"). U.S. large capitalization companies are considered to be the 400 largest market capitalization U.S. companies among the following industries: basic materials, consumer goods, consumer services, financials, health care, industrials, oil and gas, technology, telecommunications and utilities.

The SRI Guidelines focus on avoiding participation in harmful activities and promotion of the common good. The CV Index has zero tolerance for, and therefore excludes from its Index, companies involved in the following activities: direct participation or support of abortion; manufacture of contraceptive products; use of embryonic stem cell or fetal tissue for research or in a product; and manufacture of tobacco products. The CV Index also excludes companies that manufacture anti-personnel landmines or that derive greater than 5% of revenues from the production of firearms or military weapons. The CV Index avoids inclusion of companies that have been involved in predatory lending controversies and not taken steps to

address them; have a pattern of racial or gender discrimination or labor rights controversies without taking steps to address such situations; and use sweatshops in the manufacture of goods. In applying the SRI Guidelines, KLD considers companies for the CV Index with the following corporate practices: have corporate responsibility guidelines; have corporate policies on equal pay and promotion opportunities for women and minorities; provide generous wages and have generous benefit policies; and have programs and policies to protect the environment and reduce greenhouse gas emissions. Companies that provide customers with access to health care and pharmaceuticals; affordable housing or lending for housing or create environmentally beneficial technologies and/or develop alternative, renewable or clean energy resources are also selected for the CV Index. The CV Index is comprised of 100 securities each of whose weighting in the Index is rebalanced each year in June to 1%. Companies can only be added to the CV Index at reconstitution each year. Companies may be removed at any time during the year due to certain corporate actions (such as the merger or sale of a company where the CV Index opts not to take shares of the new company). Companies included in the CV Index that, after reconstitution, no longer continue to satisfy the screening guidelines for the Catholic Values Fund will not be removed from the CV Index until reconstitution and the Catholic Values Fund, to the extent it has invested in such companies, will continue to hold their securities until the next reconstitution.

KLD selects securities for the CV Index by using proprietary ratings covering environmental, social and governance and ethics criteria to evaluate the performance ("ESG performance") of the 400 largest U.S. companies (as described above), determined by float-adjusted market capitalization (capitalization calculated using shares that are readily available for purchase on the open market rather than total shares outstanding). KLD identifies the companies that conflict with the SRI Guidelines and eliminates them from the selection process. KLD then selects the companies with the highest ESG scores by industry targeting 100 companies that match in market capitalizations the industry weighting of the FTSE U.S. Index.

The Adviser will normally invest at least 80% of the Catholic Values Fund's total assets in securities that comprise the CV Index. This is a non-fundamental policy that may be changed upon 60 days' prior written notice to shareholders. The Catholic Values Fund generally will invest in all of the securities comprising the CV Index in proportion to the weightings in the CV Index although, under various circumstances where it may not be possible or practicable to purchase all of the securities in the CV Index, the Adviser may utilize a sampling methodology. Sampling means that the Adviser uses quantitative analysis to select securities that represent a sample of the securities in the CV Index that have a similar investment profile as the CV Index in terms of key risk factors, performance attributes and other characteristics.

The Catholic Values Fund may invest up to 20% of its assets in cash and cash equivalents, such as money market instruments, or in other types of investments not included in the CV Index, including in certain futures, options, swap contracts and other derivatives, that the Adviser believes will help the Catholic Values Fund track the CV Index. The Catholic Values Fund will concentrate its investments (i.e., hold 25% or more of its total assets) in a particular industry or sector to approximately the same extent that the CV Index is so concentrated.

The Christian Values Fund employs a "passive management" investment strategy designed to track the total return performance of the FaithShares Christian Values Index (the "CHV Index" or "Index"), a custom index developed by FTSE KLD. The

CHV Index is designed to measure the performance of U.S. large capitalization companies screened based on the “best practices” of faith-based investing drawn from the guidelines of various Christian denominations (the “Christian Guidelines”). U.S. large capitalization companies are considered to be the 400 largest market capitalization U.S. companies among the following industries: basic materials, consumer goods, consumer services, financials, health care, industrials, oil and gas, technology, telecommunications and utilities. The CHV Index has zero tolerance for, and therefore excludes from its Index, companies involved in: the direct participation or support of abortion; manufacture of alcoholic beverages; ownership of, or support of, gambling facilities, products or services; production or distribution of violent media; production, sale or distribution of pornography, use of embryonic stem cell or fetal tissue for research in a product; and manufacture, sale or distribution of tobacco products or supply of key elements to the tobacco industry. The CHV Index is comprised of 100 securities each of whose weighting in the Index is rebalanced each year in June to 1%. Companies can only be added to the CHV Index at reconstitution each year. Companies may be removed at any time during the year due to certain corporate actions (such as the merger or sale of a company where the CHV Index opts not to take shares of the new company). Companies included in the CHV Index that, after reconstitution, no longer continue to satisfy the screening guidelines for the Christian Values Fund will not be removed from the CHV Index until reconstitution, and the Christian Values Fund, to the extent it has invested in such companies, will continue to hold their securities until the next reconstitution. KLD selects securities for the CHV Index by using proprietary ratings covering environmental, social and governance and ethics criteria to evaluate the performance (“ESG performance”) of the 400 largest U.S. companies (as described above), determined by float-adjusted market capitalization (capitalization calculated by using shares that are readily available for purchase on the open market rather than total shares outstanding). KLD identifies the companies that conflict with the Christian Guidelines and eliminates them from the selection process. KLD then selects the companies with the highest ESG scores by industry targeting 100 companies that match in market capitalizations the industry weighting of the FTSE U.S. Index.

The Adviser will normally invest at least 80% of the Christian Values Fund’s total assets in securities that comprise the CHV Index. This is a non-fundamental policy that may be changed upon 60 days’ prior written notice to shareholders. The Christian Values Fund generally will invest in all of the securities comprising the CHV Index in proportion to the weightings in the CHV Index although, under various circumstances where it may not be possible or practicable to purchase all of the securities in the CHV Index, the Adviser may utilize a sampling methodology. Sampling means that the Adviser uses quantitative analysis to select securities that represent a sample of the securities in the CHV Index that have a similar investment profile as the CHV Index in terms of key risk factors, performance attributes and other characteristics.

The Christian Values Fund may invest up to 20% of its assets in cash and cash equivalents, such as money market instruments, or in other types of investments not included in the CHV Index, including in certain futures, options, swap contracts and other derivatives, that the Adviser believes will help the Christian Values Fund track the CHV Index. The Christian Values Fund will concentrate its investments (i.e., hold 25% or more of its total assets) in a particular industry or sector to approximately the same extent that the CHV Index is so concentrated.

The Methodist Values Fund employs a “passive management” investment strategy designed to track the total return performance of the FaithShares Methodist Values Index, a custom index developed by FTSE KLD (the “MV Index” or “Index”). The MV Index is designed to measure the performance of U.S. large capitalization companies that operate in accordance with The Social Principles of the United Methodist Church (the “Principles”). U.S. large capitalization companies are considered to be the 400 largest market capitalization U.S. companies among the following industries: basic materials, consumer goods, consumer services, financials, health care, industrials, oil and gas, technology, telecommunications and utilities. The MV Index focuses on avoiding companies that derive specified revenues from business practices that conflict with the teachings of the United Methodist Church. For example, companies that derive 10% or more of revenues from the following activities will be excluded from the MV Index: sale, distribution or marketing of alcoholic beverages or supplying key elements for alcoholic production; production of goods and services related to gambling; manufacture, sale or distribution of antipersonnel weapons and ammunition; production, sale or distribution of pornographic products or services; sale, distribution, or marketing of tobacco products or supplying key elements to the tobacco industry; or a combination of the aforementioned activities. The MV Index is comprised of 100 securities each of whose weighting in the Index is rebalanced each year in June to 1%. Companies can only be added to the MV Index at reconstitution each year. Companies may be removed at any time during the year due to certain corporate actions (such as the merger or sale of a company where the Index opts not to take shares of the new company). Companies included in the MV Index that, after reconstitution, no longer continue to satisfy the screening guidelines for the Methodist Values Fund will not be removed from the MV Index until reconstitution, and the Methodist Values Fund, to the extent it has invested in such companies, will continue to hold their securities until the next reconstitution.

KLD selects securities for the MV Index by using proprietary ratings covering environmental, social and governance and ethics criteria to evaluate the performance (“ESG performance”) of the 400 largest U.S. companies (as described above), determined by float-adjusted market capitalization (capitalization calculated by using shares that are readily available for purchase on the open market rather than total shares outstanding). KLD identifies the companies that conflict with the Principles and eliminates them from the selection process. KLD then selects the companies with the highest ESG scores by industry targeting 100 companies that match in market capitalizations the industry weighting of the FTSE U.S. Index.

The Adviser will normally invest at least 80% of the Methodist Values Fund’s total assets in securities that comprise the MV Index. This is a non-fundamental policy that may be changed upon 60 days’ prior written notice to shareholders. The Methodist Values Fund generally will invest in all of the securities comprising the MV Index in proportion to the weightings in the MV Index although, under various circumstances where it may not be possible or practicable to purchase all of the securities in the MV Index, the Adviser may utilize a sampling methodology. Sampling means that the Adviser uses quantitative analysis to select securities that represent a sample of the securities in the MV Index that have a similar investment profile as the MV Index in terms of key risk factors, performance attributes and other characteristics.

The Methodist Values Fund may invest up to 20% of its assets in cash and cash equivalents, such as money market instruments, or in other types of investments not included in the MV Index, including in certain futures, options, swap contracts and

other derivatives, that the Adviser believes will help the Methodist Values Fund track the MV Index. The Methodist Values Fund will concentrate its investments (i.e., hold 25% or more of its total assets) in a particular industry or sector to approximately the same extent that the MV Index is so concentrated.

For more information regarding each Fund's investment strategy, please read the prospectus for the Funds.

As described more fully in the Trust's prospectus and Statement of Additional Information ("SAI"), the Funds issue and redeem Shares at net asset value ("NAV") only in large blocks of 50,000 Shares (each block of Shares called a "Creation Unit") or multiples thereof. As a practical matter, only broker-dealers or large institutional investors with creation and redemption agreements (called Authorized Participants) can purchase or redeem these Creation Units. Except when aggregated in Creation Units, the Shares may not be redeemed with the Funds.

Each Fund pays out dividends from its net investment income to investors at least quarterly. The Funds distribute net capital gains, if any, annually.

Shares are held in book-entry form, which means that no Share certificates are issued. The Depository Trust Company or its nominee is the record owner of all outstanding Shares of the Funds and is recognized as the owner of all Shares for all purposes.

The NAV per Share for each Fund is computed by dividing the value of the net assets of the Fund (i.e., the value of its total assets less total liabilities) by the total number of Shares outstanding. Expenses and fees are accrued daily and taken into account for purposes of determining NAV. The NAV of each Fund is determined each business day after the close of trading (ordinarily 4:00 p.m., Eastern Time or "ET") of the New York Stock Exchange. Any assets or liabilities denominated in currencies other than the U.S. dollar are converted into U.S. dollars at the current market rates on the date of valuation as quoted by one or more sources.

The registration statement for the Funds describes the various fees and expenses for the Funds' Shares. For a more complete description of the Funds and the underlying indexes, visit the Funds' website at [www.faithshares.com](http://www.faithshares.com).

## **Purchases and Redemptions in Creation Unit Size**

PHLX members and member organizations are hereby informed that procedures for purchases and redemptions of Shares in Creation Unit Size are described in the Trust's prospectus and SAI, and that Shares are not individually redeemable but are redeemable only in Creation Unit Size aggregations or multiples thereof.

## **Principal Risks**

Interested persons are referred to the discussion in the prospectus for the Funds of the principal risks of an investment in the Funds. These include tracking error risk (factors causing a Fund's performance to not match the performance of its underlying index), market trading risk (for example, trading halts, trading above or below net asset value), investment style risk, sector risk, investment approach risk,

non-diversification risk, issuer-specific risk, management risk, derivatives risk and concentration risk.

### **Exchange Rules Applicable to Trading in the Shares**

Trading of the Shares on PHLX's PSX system is on a UTP basis and is subject to PHLX rules.

### **Trading Hours**

The values of each index underlying the Shares are disseminated to data vendors every 15 seconds. The Shares will trade on PSX between 9:00 a.m. and 5:00 p.m. ET. For trading during PSX's Pre-Market and Post-Market Sessions, market participants should note that additional risks may exist with respect to trading the Funds during these sessions, when the underlying index's values, intraday indicative value, or similar value may not be disseminated or calculated.

### **Dissemination of Fund Data**

The Consolidated Tape Association will disseminate real time trade and quote information for the Funds to Tape B.

<b>Fund Name</b>	<b>Listing Market</b>	<b>Trading Symbol</b>	<b>IOPV Symbol</b>	<b>NAV Symbol</b>
FaithShares Catholic Values Fund	NYSE Arca	FCV	FCV.IV	FCV.NV
FaithShares Christian Values Fund	NYSE Arca	FOC	FOC.IV	FOC.NV
FaithShares Methodist Values Fund	NYSE Arca	FMV	FMV.IV	FMV.NV

### **Suitability**

Members and member organizations recommending transactions in the Shares to customers should make a determination that the recommendation is suitable for the customer, as provided by PHLX Rule 763.

PHLX members and member organizations also should review NASD Notice to Members 03-71 for guidance on trading these products. The Notice reminds members of their obligations to: (1) conduct adequate due diligence to understand the features of the product; (2) perform a reasonable-basis suitability analysis; (3) perform customer-specific suitability analysis in connection with any recommended transactions; (4) provide a balanced disclosure of both the risks and rewards associated with the particular product, especially when selling to retail investors; (5) implement appropriate internal controls; and (6) train registered persons regarding the features, risk and suitability of these products.

## Trading Halts

PHLX will halt trading in the Shares of a Fund in accordance with PHLX Rule 3100. The grounds for a halt under these rules include a halt by the primary market because the intraday indicative value of the Fund, the value of its underlying index, or a similar value are not being disseminated as required, or a halt for other regulatory reasons. In addition, PHLX will also stop trading the Shares of a Fund if the primary market de-lists the Fund.

## Delivery of a Prospectus

PHLX members and member organizations should be mindful of applicable prospectus delivery requirements under the federal securities laws with respect to transactions in the Funds.

Prospectuses may be obtained through the Funds' website. The prospectus for the Funds does not contain all of the information set forth in the Funds' registration statement (including the exhibits to the registration statement), parts of which have been omitted in accordance with the rules and regulations of the Securities and Exchange Commission ("SEC"). For further information about the Funds, please refer to the registration statement.

In the event that the Funds rely upon an order by the SEC exempting the Shares from certain prospectus delivery requirements under Section 24(d) of the 1940 Act and in the future make available a written product description, PHLX Rule 803(o) requires that PHLX members and member organizations provide to all purchasers of Shares a written description of the terms and characteristics of such securities, in a form prepared by the Trust for the Funds, no later than the time a confirmation of the first transaction in the Shares is delivered to such purchaser. In addition, PHLX members and member organizations shall include such a written description with any sales material relating to the Shares that is provided to customers or the public. Any other written materials provided by a PHLX member or member organization to customers or the public making specific reference to the Shares as an investment vehicle must include a statement in substantially the following form: "A circular describing the terms and characteristics of the Shares of the Fund has been prepared by the Trust and is available from your broker. It is recommended that you obtain and review such circular before purchasing Shares of the Fund. In addition, upon request you may obtain from your broker a prospectus for Shares of the Fund."

A PHLX member or member organization carrying an omnibus account for a non-member broker-dealer is required to inform such non-member that execution of an order to purchase Shares for such omnibus account will be deemed to constitute agreement by the non-member to make such written description available to its customers on the same terms as are directly applicable to PHLX members and member organizations under this rule.

Upon request of a customer, PHLX members and member organizations also shall provide a copy of the prospectus.

## **Exemptive, Interpretive and No-Action Relief Under Federal Securities Regulations**

The SEC has issued exemptive, interpretive or no-action relief from certain provisions of rules under the Securities Exchange Act of 1934 (the "Act") regarding trading in the above mentioned exchange-traded Funds.

### **Regulation M Exemptions**

Generally, Rules 101 and 102 of Regulation M prohibit any "distribution participant" and its "affiliated purchasers" from bidding for, purchasing, or attempting to induce any person to bid for or purchase any security which is the subject of a distribution until after the applicable restricted period, except as specifically permitted in Regulation M. The provisions of the Rules apply to underwriters, prospective underwriters, brokers, dealers, and other persons who have agreed to participate or are participating in a distribution of securities.

The SEC has granted an exemption from Rule 101 under Regulation M to permit persons participating in a distribution of shares of the above-mentioned Funds to engage in secondary market transactions in such shares during their participation in such a distribution. In addition, the SEC has granted relief under Regulation M to permit persons who may be deemed to be participating in the distribution of Shares of the above-mentioned Funds (i) to purchase securities for the purpose of purchasing Creation Unit Aggregations of Fund Shares and (ii) to tender securities for redemption in Creation Unit Aggregations. Further, the SEC has clarified that the tender of Fund Shares to the Funds for redemption does not constitute a bid for or purchase of any of the Funds' securities during the restricted period of Rule 101. The SEC has also granted an exemption pursuant to paragraph (e) of Rule 102 under Regulation M to allow the redemption of Fund Shares in Creation Unit Aggregations during the continuous offering of Shares.

### **Customer Confirmations for Creation or Redemption of Fund Shares (SEC Rule 10b-10)**

Broker-dealers who handle purchases or redemptions of Fund Shares in Creation Unit size for customers will be permitted to provide such customers with a statement of the number of Creation Unit Aggregations created or redeemed without providing a statement of the identity, number and price of shares of the individual securities tendered to a Fund for purposes of purchasing Creation Unit Aggregations ("Deposit Securities") or the identity, number and price of shares to be delivered by the Trust for the Fund to the redeeming holder ("Redemption Securities"). The composition of the securities required to be tendered to the Fund for creation purposes and of the securities to be delivered on redemption will be disseminated each business day and will be applicable to requests for creations or redemption, as the case may be, on that day. This exemptive relief under Rule 10b-10 with respect to creations and redemptions is subject to the following conditions:

- 1) Confirmations to customers engaging in creations or redemptions must state that all information required by Rule 10b-10 will be provided upon request;

- 2) Any such request by a customer for information required by Rule 10b-10 will be filed in a timely manner, in accordance with Rule 10b-10(c);
- 3) Except for the identity, number and price of shares of the component securities of the Deposit Securities and Redemption Securities, as described above, confirmations to customers must disclose all other information required by Rule 10b-10(a).

### **SEC Rule 14e-5**

An exemption from Rule 14e-5 has been granted to permit any person acting as a dealer-manager of a tender offer for a component security of a Fund (1) to redeem Fund Shares in Creation Unit Aggregations from the issuer that may include a security subject to such tender offer and (2) to purchase Fund Shares during such tender offer. In addition, a no-action position has been taken under Rule 14e-5 if a broker-dealer acting as a dealer-manager of a tender offer for a security of a Fund purchases or arranges to purchase such securities in the secondary market for the purpose of tendering such securities to purchase one or more Creation Unit Aggregations of Shares, if made in conformance with the following:

- 1) such bids or purchases are effected in the ordinary course of business, in connection with a basket of 20 or more securities in which any security that is the subject of a distribution, or any reference security, does not comprise more than 5% of the value of the basket purchased; or
- 2) purchases are effected as adjustments to such basket in the ordinary course of business as a result of a change in the composition of the underlying index; and
- 3) such bids or purchases are not effected for the purpose of facilitating such tender offer.

### **Section 11(d)(1); SEC Rules 11d1-1 and 11d1-2**

Section 11(d)(1) of the Act generally prohibits a person who is both a broker and a dealer from effecting any transaction in which the broker-dealer extends credit to a customer on any security which was part of a new issue in the distribution of which he participated as a member of a selling syndicate or group within thirty days prior to such transaction. The SEC has clarified that Section 11(d)(1) does not apply to broker-dealers that are not Authorized Participants (and, therefore, do not create Creation Unit Aggregations) that engage in both proprietary and customer transactions in Shares of the Fund in the secondary market, and for broker-dealer Authorized Participants that engage in creations of Creation Unit Aggregations. This relief is subject to specific conditions, including the condition that such broker-dealer (whether or not an Authorized Participant) does not, directly or indirectly, receive from the fund complex any payment, compensation or other economic incentive to promote or sell the Shares of a Fund to persons outside the fund complex, other than non-cash compensation permitted under NASD Rule 2830(l)(5)(A), (B) or (C). (See [letter](#) from Catherine McGuire, Chief Counsel, SEC Division of Market Regulation, to Securities Industry Association, Derivative Products Committee, dated November 21, 2005.) The SEC also has taken a no-action position under Section 11(d)(1) of the Act that broker-dealers may treat Shares of a Fund, for purposes of Rule 11d1-2, as "securities issued by a registered open-end investment company as defined in the Investment Company Act" and thereby extend credit or maintain or

arrange for the extension or maintenance of credit on Shares that have been owned by the persons to whom credit is provided for more than 30 days, in reliance on the exemption contained in the rule.

### **SEC Rule 15c1-5 and 15c1-6**

The SEC has taken a no-action position with respect to Rule 15c1-5 and Rule 15c1-6 as to the required disclosure of control by a broker or dealer with respect to creations and redemptions of Fund Shares and secondary market transactions therein. (See [letter](#) from Catherine McGuire, Chief Counsel, SEC Division of Market Regulation, to Securities Industry Association, Derivative Products Committee, dated November 21, 2005.)

**This Information Circular is not a statutory prospectus. PHLX members and member organizations should consult the Funds' prospectus and/or the Funds' website for relevant information.**
