### Information on the Notes

Merrill Lynch & Co., Inc. (the "Issuer") has issued Strategic Return Notes ("Notes") linked to the Select 10 Index (the "Index"). The Notes were priced at \$10.00 each and mature on May 10, 2012. As more fully set forth in the Prospectus Supplement, each \$10.00 principal amount of the securities will be deemed a "Unit" for purposes of trading and transfer. The Notes are exchangeable at the investor's option during a specified period in April each year from 2008 through 2011 as described in the pricing supplement.

The Notes are designed for investors who anticipate that the level of the Index will increase by at least approximately 1% from the Starting Value of the Index to the Ending Value of the Index and who are willing to forego interest payments on the Notes.

At maturity, Investors will receive:

$$\$9.90 \times (\text{Ending Value} / \text{Starting Value})$$

The Starting Level of the Index is 131.29. The Ending Value will be the average of the levels of the Index at the close of the market on five business days shortly before the maturity date of the Notes.

If the value of the Index decreases, or does not increase sufficiently, investors will receive less, and possibly significantly less, than the \$10 original public offering price per Unit.

It is expected that the market value of the Notes will depend substantially on the value of the Index and can be affected by a number of other interrelated factors including, among other things: the general level of interest rates, the volatility of the Index, the time remaining to maturity, the dividend yields of the stocks comprising the Index and the credit ratings of the Issuer. Unlike ordinary debt securities, the Notes do not pay interest. Investing in the Notes is not equivalent to investing in the Index or its component stocks.

The Notes are senior unsecured debt securities of Merrill Lynch & Co., Inc.

Trading in the Notes on PHLX's PSX system is on a UTP basis and is subject to PHLX rules. The Notes will trade on PSX from 9:00 a.m. until 5:00 p.m. Eastern Time. For trading during PSX's Pre-Market and Post-Market Sessions, market participants should note that additional risks may exist with respect to trading the Notes during these sessions, when the underlying index's value or similar value may not be disseminated.

PHLX will halt trading in the Notes in accordance with PHLX Rule 3100. The grounds for a halt under these rules include a halt by the primary market because the value of the underlying index or a similar value is not being disseminated as required, or a halt for other regulatory reasons. In addition, PHLX will also stop trading the Shares Notes if the primary market de-lists the Notes.

Members and member organizations recommending transactions in the Notes to customers should make a determination that the recommendation is suitable for the customer, as provided by PHLX Rule 763.

PSX members and member organizations also should review NASD Notice to Members 03-71 for guidance on trading these products. The Notice reminds broker-dealers of their obligations to: (1) conduct adequate due diligence to understand the features of the product; (2) perform a reasonable-basis suitability analysis; (3) perform customer-specific suitability analysis in connection with any recommended transactions; (4) provide a balanced disclosure of both the risks and rewards associated with the particular product, especially when selling to retail investors; (5) implement appropriate internal controls; and (6) train registered persons regarding the features, risk and suitability of these products.

**This Information Circular is not a statutory prospectus. PHLX members and member organizations should consult the registration statement or prospectus for the Notes for additional information.**
