### BACKGROUND INFORMATION ON THE FUND

The ETFis Series Trust (the “Trust”) is a management investment company registered under the Investment Company Act of 1940, as amended (the “1940 Act”), consisting of several investment portfolios. This circular relates only to the InfraCap REIT Preferred ETF (the “Fund”). Virtus ETF Advisers LLC (the “Adviser”) serves as the investment adviser to the Fund. The shares of the Fund are referred to herein as “Shares.”

The Fund seeks investment results that correspond, before fees and expenses, to the price and yield performance of the Indxx REIT Preferred Stock Index (the “Underlying Index”).

Under normal market conditions, the Fund will invest not less than 90% of its assets in component securities of the Underlying Index. The Underlying Index is comprised of preferred securities listed on U.S. exchanges that are issued by real estate investment trusts (“REITs”).

Preferred securities are a class of equity security that typically pay fixed or floating dividends to investors and have “preference” over common stock (but are subordinated to bonds) in the payment of dividends and in the event of the bankruptcy or liquidation of a company’s assets. Although preferred securities represent an ownership interest in a company, preferred stockholders usually have no voting rights with respect to corporate matters of the issuer. Instead, preferred securities typically have rights and characteristics similar to debt instruments. Preferred securities in the Underlying Index may include, without limitation, floating and fixed-rate preferred securities, callable preferred securities, cumulative and non-cumulative preferred securities, convertible preferred securities, trust preferred securities and depositary preferred securities.

A REIT is a corporation, trust or association dedicated to owning, operating or financing income-producing real estate. To qualify as a REIT under the Internal Revenue Code of 1986, as amended (the “Code”), a REIT is required to distribute at least 90% of its taxable income to shareholders annually and receive at least 75% of that income from rents, mortgages and sales of property. A REIT

that qualifies under the Code is generally not taxed on income that it distributes to its shareholders. The Underlying Index may include preferred securities issued by Equity REITs, Mortgage REITs or Hybrid REITs. Equity REITs, which invest the majority of their assets directly in real property, derive their income primarily from rental and lease income, but may also realize capital gains by selling properties that have appreciated in value. Mortgage REITs, which provide loans to owners and operators of real estate assets or hold or trade mortgages or mortgage-backed securities, derive their income primarily from interest payments made on the underlying mortgages. Hybrid REITs may invest in a combination of properties, mortgages and mortgage-backed securities.

The Underlying Index, which was launched in January 2015, is a modified market capitalization weighted index designed to provide diversified exposure to high yielding liquid preferred securities issued by REITs listed in the U.S. In a market capitalization weighted index, each component security is weighted by the issuer's market capitalization relative to the overall capitalization of the index.

The Underlying Index was co-developed by Infrastructure Capital Advisors, LLC, the Fund's sub-adviser (the "Sub-Adviser"), and Indxx, LLC ("Indxx"), the index provider of the Underlying Index. Indxx is not affiliated with the Fund, the Sub-Adviser, or the Fund's adviser. Indxx owns the Underlying Index and is solely responsible for calculating, maintaining and rebalancing the Underlying Index.

To be included in the Underlying Index, a security generally must meet the following minimum criteria as of each reconstitution date:

- Security Type: Preferred Securities
- Primary Exchange: United States
- Type of Issuer: REIT
- Market Capitalization: \$75 million or more
- 6 Month Average Monthly Trading Volume: 250,000 shares or more
- Yield to Worst (i.e., an estimate of the lowest potential yield that can be received on a preferred security without issuer default): 3% or more
- Constituent Weightings: No single issuer will exceed 10% of its representation in the Underlying Index. No REIT sub-sector will exceed 30% of the Underlying Index, upon rebalance, with the exception of the Diversified REIT sub-sector, which will not exceed 35%.

Once the investment universe is appropriately narrowed based on the foregoing criteria, all remaining securities are chosen as index constituents, which are then weighted based on their modified market capitalization. Indxx reconstitutes the Underlying Index on March 31 and September 30 of each year in accordance with the Underlying Index methodology. As of September 30, 2016, the Underlying Index contained 31 securities of 26 issuers.

Indxx's Index Committee is responsible for setting policy, determining index composition, and administering the Underlying Index in accordance with the Underlying Index methodology. The Index Committee reserves the right to use qualitative judgment to include, exclude, adjust, or postpone the inclusion of a constituent. Continued index membership of a constituent is not necessarily subject to the Underlying Index methodology. A constituent may be considered for exclusion by the Index Committee on the basis of corporate governance, accounting policies, lack of transparency and lack of representation, despite meeting all the criteria provided in the Underlying Index methodology.

The Fund uses a “passive” or indexing investment approach to try to approximate the investment performance of the Underlying Index. Unlike many investment companies, the Fund will not seek to “beat” the performance of the Underlying Index and will not seek temporary defensive measures when markets decline or appear overvalued. The Fund is not required to purchase all of the securities in the Underlying Index. Instead, the Sub-Adviser may invest in a representative sample of securities that, in the aggregate, approximates the key characteristics of the Underlying Index, including, without limitation, market capitalization, industry weightings, yield and liquidity measures.

The Fund expects to concentrate its investments (i.e., to hold 25% or more of its total assets) in a particular industry or group of industries approximately to the same extent that the Underlying Index is concentrated. As of the date of this prospectus, the Underlying Index is concentrated in the real estate industry.

Please read the Fund’s prospectus for more information regarding its investment objectives.

As described more fully in the Trust’s prospectus and Statement of Additional Information, the Fund will issue and redeem Shares on a continuous basis at their net asset value (“NAV”) only in large blocks of 50,000 Shares (each, a “Creation Unit”). Creation Units will be issued and redeemed principally in-kind for securities included in the underlying index. Except when aggregated in Creation Units, the Shares may not be redeemed with the Fund.

Shares are held in book-entry form, which means that no Share certificates are issued. The Depository Trust Company or its nominee is the record owner of all outstanding Shares of the Funds and is recognized as the owner of all Shares for all purposes.

The NAV per Share for the Fund is computed by dividing the value of the net assets of the Fund (i.e., the value of its total assets less total liabilities) by the total number of Shares outstanding. Expenses and fees are accrued daily and taken into account for purposes of determining NAV. The NAV of each Fund is determined each business day after the close of trading (ordinarily 4:00 p.m., Eastern Time or “ET”) of the New York Stock Exchange. Any assets or liabilities denominated in currencies other than the U.S. dollar are converted into U.S. dollars at the current market rates on the date of valuation as quoted by one or more sources.

The registration statement for the Fund describes the various fees and expenses for the Fund’s Shares. For a more complete description of the Fund and the underlying Index, visit the Fund’s website at [www.InfraCapPFFR.com](http://www.InfraCapPFFR.com).

### **EXEMPTIVE, INTERPRETIVE AND NO-ACTION RELIEF UNDER FEDERAL SECURITIES REGULATIONS**

The SEC has issued exemptive, interpretive or no-action relief from certain provisions of rules under the Securities Exchange Act of 1934 (the “Act”) regarding trading in the above mentioned exchange-traded Fund.

### **REGULATION M EXEMPTIONS**

Generally, Rules 101 and 102 of Regulation M prohibit any “distribution participant” and its “affiliated purchasers” from bidding for, purchasing, or attempting to induce any person to bid for or purchase any security which is the subject of a distribution until after the applicable restricted period, except as specifically permitted in Regulation M. The provisions of the Rules apply to underwriters, prospective underwriters, brokers, dealers, and other persons who have agreed to participate or are participating in a distribution of securities.

The SEC has granted an exemption from Rule 101 under Regulation M to permit persons participating in a distribution of shares of the above-mentioned Fund to engage in secondary market transactions in such shares during their participation in such a distribution. In addition, the SEC has granted relief under Regulation M to permit persons who may be deemed to be participating in the distribution of Shares of the above-mentioned Fund (i) to purchase securities for the purpose of purchasing Creation Unit Aggregations of Fund Shares and (ii) to tender securities for redemption in Creation Unit Aggregations. Further, the SEC has clarified that the tender of Fund Shares to the Fund for redemption does not constitute a bid for or purchase of any of the Fund’s securities during the restricted period of Rule 101. The SEC has also granted an exemption pursuant to paragraph (e) of Rule 102 under Regulation M to allow the redemption of Fund Shares in Creation Unit Aggregations during the continuous offering of Shares.

### **CUSTOMER CONFIRMATIONS FOR CREATION OR REDEMPTION OF FUND SHARES (SEC RULE 10B-10)**

Broker-dealers who handle purchases or redemptions of Fund Shares in Creation Unit size for customers will be permitted to provide such customers with a statement of the number of Creation Unit Aggregations created or redeemed without providing a statement of the identity, number and price of shares of the individual securities tendered to the Fund for purposes of purchasing Creation Unit Aggregations (“Deposit Securities”) or the identity, number and price of shares to be delivered

by the Trust for the Fund to the redeeming holder (“Redemption Securities”). The composition of the securities required to be tendered to the Fund for creation purposes and of the securities to be delivered on redemption will be disseminated each business day and will be applicable to requests for creations or redemption, as the case may be, on that day. This exemptive relief under Rule 10b-10 with respect to creations and redemptions is subject to the following conditions:

- 1) Confirmations to customers engaging in creations or redemptions must state that all information required by Rule 10b-10 will be provided upon request;
- 2) Any such request by a customer for information required by Rule 10b-10 will be filed in a timely manner, in accordance with Rule 10b-10(c);
- 3) Except for the identity, number and price of shares of the component securities of the Deposit Securities and Redemption Securities, as described above, confirmations to customers must disclose all other information required by Rule 10b-10(a).

#### **SEC RULE 14E-5**

An exemption from Rule 14e-5 has been granted to permit any person acting as a dealer-manager of a tender offer for a component security of the Fund (1) to redeem Fund Shares in Creation Unit Aggregations from the issuer that may include a security subject to such tender offer and (2) to purchase Fund Shares during such tender offer. In addition, a no-action position has been taken under Rule 14e-5 if a broker-dealer acting as a dealer-manager of a tender offer for a security of the Fund purchases or arranges to purchase such securities in the secondary market for the purpose of tendering such securities to purchase one or more Creation Unit Aggregations of Shares, if made in conformance with the following:

- 1) such bids or purchases are effected in the ordinary course of business, in connection with a basket of 20 or more securities in which any security that is the subject of a distribution, or any reference security, does not comprise more than 5% of the value of the basket purchased; or
- 2) purchases are effected as adjustments to such basket in the ordinary course of business as a result of a change in the composition of the underlying index; and
- 3) such bids or purchases are not effected for the purpose of facilitating such tender offer.

#### **SECTION 11(D)(1); SEC RULES 11D1-1 AND 11D1-2**

Section 11(d)(1) of the Act generally prohibits a person who is both a broker and a dealer from effecting any transaction in which the broker-dealer extends credit to a customer on any security which was part of a new issue in the distribution of which he participated as a member of a selling syndicate or group within thirty days prior to such transaction. The SEC has clarified that Section 11(d)(1) does not apply to broker-dealers that are not Authorized Participants (and, therefore, do not create Creation Unit Aggregations) that engage in both proprietary and customer transactions in Shares of the Fund in the secondary market, and for broker-dealer Authorized Participants that engage in creations of Creation Unit Aggregations. This relief is subject to specific conditions, including the condition that such broker-dealer (whether or not an Authorized Participant) does not, directly or indirectly, receive from the fund complex any payment, compensation or other economic

incentive to promote or sell the Shares of the Fund to persons outside the fund complex, other than non-cash compensation permitted under NASD Rule 2830(l)(5)(A), (B) or (C). (See [letter](#) from Catherine McGuire, Chief Counsel, SEC Division of Market Regulation, to Securities Industry Association, Derivative Products Committee, dated November 21, 2005.) The SEC also has taken a no-action position under Section 11(d)(1) of the Act that broker-dealers may treat Shares of the Fund, for purposes of Rule 11d1-2, as "securities issued by a registered open-end investment company as defined in the Investment Company Act" and thereby extend credit or maintain or arrange for the extension or maintenance of credit on Shares that have been owned by the persons to whom credit is provided for more than 30 days, in reliance on the exemption contained in the rule.

#### **SEC RULE 15C1-5 AND 15C1-6**

The SEC has taken a no-action position with respect to Rule 15c1-5 and Rule 15c1-6 as to the required disclosure of control by a broker or dealer with respect to creations and redemptions of Fund Shares and secondary market transactions therein. (See [letter](#) from Catherine McGuire, Chief Counsel, SEC Division of Market Regulation, to Securities Industry Association, Derivative Products Committee, dated November 21, 2005.)
