BACKGROUND INFORMATION ON THE FUND

The VanEck Vectors ETF Trust (the “Trust”) is a management investment company registered under the Investment Company Act of 1940, as amended (the “1940 Act”), consisting of several investment portfolios. This circular relates only to the VanEck Vectors Real Asset Allocation ETF (the “Fund”). The shares of the Fund are referred to herein as “Shares.” Van Eck Absolute Return Advisers Corporation (the “Adviser”) serves as the investment adviser to the Fund.

The investment objective of the Fund is long-term total return. In pursuing long-term total return, the Fund seeks to maximize “real returns” (as defined below) while seeking to reduce downside risk during sustained market declines.

The Fund is an actively managed exchange-traded fund (“ETF”) that seeks to achieve its investment objective by investing, under normal circumstances, primarily in (i) exchange traded products that provide exposure to real assets through investment in domestic and foreign equity and debt securities, master limited partnerships (“MLPs”), and physical commodities, including ETFs and non-1940 Act (defined herein) commodity pools or commodity trusts and exchange traded notes (“ETNs”) (collectively, “ETPs”); and (ii) cash or cash equivalents. Real assets include commodities (such as gold), real estate, natural resources and infrastructure, as well as companies that own, operate, or derive a significant portion of their value from real assets or the production thereof. The investments held by the ETPs may include physical assets and equity securities of companies of any market capitalization, debt securities of any credit quality (including high-yield (or “junk”) securities), duration and maturity and emerging market securities. The Fund seeks to maximize “real returns” while seeking to reduce downside risk during sustained market declines. The Fund seeks to reduce downside risk by primarily allocating a significant portion, at times as much as 100%, of the Fund’s assets to cash and cash equivalents based on the model described below. “Real returns” are defined as total returns adjusted for the effects of inflation.

The Adviser uses a proprietary, rules-based real asset allocation model (the “Real Asset Model”). The Real Asset Model considers various inputs to guide asset allocation decisions and select real asset investments (and to thereby select ETPs that provide exposure to those real asset classes) that the Adviser believes will offer positive expected returns. The Real Asset Model uses various indicators, such as technical, macroeconomic, and sentiment indicators to generate allocation signals among real asset investments. These signals are used as an input to guide which ETPs to allocate to as well as to guide the total cash or cash equivalent allocation.

The indicators used by the Real Asset Model include, but are not limited to, equity price trends, commodity price trends, volatility (the measure of variation of returns for a given security or market index), investor sentiment (investor attitude towards a particular security or financial market as revealed through market activity or investor surveys), and macroeconomic supply and demand (the relationship between the consumption and production of assets, and its effect on price levels). The Adviser anticipates that the Real Asset Model will evolve over time and may incorporate additional indicators. The Adviser allocates the Fund’s assets to those ETPs that it believes will have returns that, in the aggregate, closely correlate (before fees and expenses) to the returns of the Real Asset Model. The Real Asset Model typically adjusts its allocation signals on a monthly basis.

A significant portion, at times as much as 100%, of the Fund’s assets may be held in cash or cash equivalents including, but not limited to, money market instruments, U.S. Treasury bills, treasury inflation-protected securities, interests in short-term investment funds or shares of money market or short-term bond funds. The Adviser currently anticipates investing in 1- to 3-month U.S. Treasury Bills when a portion of the Fund’s assets are allocated to cash or cash equivalents. The Fund may engage in active and frequent trading of portfolio securities.

The Fund will invest in certain ETPs through a wholly-owned subsidiary of the Fund organized under the laws of the Cayman Islands (the “Subsidiary”). The Subsidiary is a limited company, is wholly-owned and controlled by the Fund and is advised by the Adviser. The Fund’s investment in the Subsidiary may not exceed 25% of the value of the Fund’s total assets at each quarter-end of the Fund’s fiscal year. The Fund’s investment in the Subsidiary, via the Subsidiary’s investment in ETPs, is expected to provide the Fund with exposure to physical commodities and futures and derivatives of physical commodities (“Commodities Instruments”) within the limits of the federal tax laws, which limit the ability of investment companies like the Fund to invest directly in such instruments. The Subsidiary has the same investment objective as the Fund and will follow the same general investment policies and restrictions, except that unlike the Fund, it may invest, via its investment in ETPs, without limit in Commodities Instruments.

Please read the Fund’s prospectus for more information regarding its investment objectives.

As described more fully in the Trust’s prospectus and Statement of Additional Information, the Fund will issue and redeem Shares on a continuous basis at their net asset value (“NAV”) only in large blocks of 50,000 Shares (each, a “Creation Unit”). Creation Units will be issued and redeemed principally in-kind for securities included in the underlying index. Except when aggregated in Creation Units, the Shares may not be redeemed with the Fund.

Shares are held in book-entry form, which means that no Share certificates are issued. The Depository Trust Company or its nominee is the record owner of all outstanding Shares of the Funds and is recognized as the owner of all Shares for all purposes.

The NAV per Share for the Fund is computed by dividing the value of the net assets of the Fund (i.e., the value of its total assets less total liabilities) by the total number of Shares outstanding. Expenses and fees are accrued daily and taken into account for purposes of determining NAV. The NAV of each Fund is determined each business day after the close of trading (ordinarily 4:00 p.m., Eastern Time or “ET”) of the New York Stock Exchange. Any assets or liabilities denominated in currencies other than the U.S. dollar are converted into U.S. dollars at the current market rates on the date of valuation as quoted by one or more sources.

The registration statement for the Fund describes the various fees and expenses for the Fund’s Shares. For a more complete description of the Fund and the underlying Index, visit the Fund’s website at www.vaneck.com.

EXEMPTIVE, INTERPRETIVE AND NO-ACTION RELIEF UNDER FEDERAL SECURITIES REGULATIONS

The SEC has issued exemptive, interpretive or no-action relief from certain provisions of rules under the Securities Exchange Act of 1934 (the "Act") regarding trading in the above mentioned exchange-traded Fund.

REGULATION M EXEMPTIONS

Generally, Rules 101 and 102 of Regulation M prohibit any "distribution participant" and its "affiliated purchasers" from bidding for, purchasing, or attempting to induce any person to bid for or

purchase any security which is the subject of a distribution until after the applicable restricted period, except as specifically permitted in Regulation M. The provisions of the Rules apply to underwriters, prospective underwriters, brokers, dealers, and other persons who have agreed to participate or are participating in a distribution of securities.

The SEC has granted an exemption from Rule 101 under Regulation M to permit persons participating in a distribution of shares of the above-mentioned Fund to engage in secondary market transactions in such shares during their participation in such a distribution. In addition, the SEC has granted relief under Regulation M to permit persons who may be deemed to be participating in the distribution of Shares of the above-mentioned Fund (i) to purchase securities for the purpose of purchasing Creation Unit Aggregations of Fund Shares and (ii) to tender securities for redemption in Creation Unit Aggregations. Further, the SEC has clarified that the tender of Fund Shares to the Fund for redemption does not constitute a bid for or purchase of any of the Fund's securities during the restricted period of Rule 101. The SEC has also granted an exemption pursuant to paragraph (e) of Rule 102 under Regulation M to allow the redemption of Fund Shares in Creation Unit Aggregations during the continuous offering of Shares.

CUSTOMER CONFIRMATIONS FOR CREATION OR REDEMPTION OF FUND SHARES (SEC RULE 10B-10)

Broker-dealers who handle purchases or redemptions of Fund Shares in Creation Unit size for customers will be permitted to provide such customers with a statement of the number of Creation Unit Aggregations created or redeemed without providing a statement of the identity, number and price of shares of the individual securities tendered to the Fund for purposes of purchasing Creation Unit Aggregations ("Deposit Securities") or the identity, number and price of shares to be delivered by the Trust for the Fund to the redeeming holder ("Redemption Securities"). The composition of the securities required to be tendered to the Fund for creation purposes and of the securities to be delivered on redemption will be disseminated each business day and will be applicable to requests for creations or redemption, as the case may be, on that day. This exemptive relief under Rule 10b-10 with respect to creations and redemptions is subject to the following conditions:

- 1) Confirmations to customers engaging in creations or redemptions must state that all information required by Rule 10b-10 will be provided upon request;
- 2) Any such request by a customer for information required by Rule 10b-10 will be filed in a timely manner, in accordance with Rule 10b-10(c);
- 3) Except for the identity, number and price of shares of the component securities of the Deposit Securities and Redemption Securities, as described above, confirmations to customers must disclose all other information required by Rule 10b-10(a).

SEC RULE 14E-5

An exemption from Rule 14e-5 has been granted to permit any person acting as a dealer-manager of a tender offer for a component security of the Fund (1) to redeem Fund Shares in Creation Unit Aggregations from the issuer that may include a security subject to such tender offer and (2) to purchase Fund Shares during such tender offer. In addition, a no-action position has been taken under Rule 14e-5 if a broker-dealer acting as a dealer-manager of a tender offer for a security of the

Fund purchases or arranges to purchase such securities in the secondary market for the purpose of tendering such securities to purchase one or more Creation Unit Aggregations of Shares, if made in conformance with the following:

- 1) such bids or purchases are effected in the ordinary course of business, in connection with a basket of 20 or more securities in which any security that is the subject of a distribution, or any reference security, does not comprise more than 5% of the value of the basket purchased; or
- 2) purchases are effected as adjustments to such basket in the ordinary course of business as a result of a change in the composition of the underlying index; and
- 3) such bids or purchases are not effected for the purpose of facilitating such tender offer.

SECTION 11(D)(1); SEC RULES 11D1-1 AND 11D1-2

Section 11(d)(1) of the Act generally prohibits a person who is both a broker and a dealer from effecting any transaction in which the broker-dealer extends credit to a customer on any security which was part of a new issue in the distribution of which he participated as a member of a selling syndicate or group within thirty days prior to such transaction. The SEC has clarified that Section 11(d)(1) does not apply to broker-dealers that are not Authorized Participants (and, therefore, do not create Creation Unit Aggregations) that engage in both proprietary and customer transactions in Shares of the Fund in the secondary market, and for broker-dealer Authorized Participants that engage in creations of Creation Unit Aggregations. This relief is subject to specific conditions, including the condition that such broker-dealer (whether or not an Authorized Participant) does not, directly or indirectly, receive from the fund complex any payment, compensation or other economic incentive to promote or sell the Shares of the Fund to persons outside the fund complex, other than non-cash compensation permitted under NASD Rule 2830(l)(5)(A), (B) or (C). (See [letter](#) from Catherine McGuire, Chief Counsel, SEC Division of Market Regulation, to Securities Industry Association, Derivative Products Committee, dated November 21, 2005.) The SEC also has taken a no-action position under Section 11(d)(1) of the Act that broker-dealers may treat Shares of the Fund, for purposes of Rule 11d1-2, as "securities issued by a registered open-end investment company as defined in the Investment Company Act" and thereby extend credit or maintain or arrange for the extension or maintenance of credit on Shares that have been owned by the persons to whom credit is provided for more than 30 days, in reliance on the exemption contained in the rule.

SEC RULE 15C1-5 AND 15C1-6

The SEC has taken a no-action position with respect to Rule 15c1-5 and Rule 15c1-6 as to the required disclosure of control by a broker or dealer with respect to creations and redemptions of Fund Shares and secondary market transactions therein. (See [letter](#) from Catherine McGuire, Chief Counsel, SEC Division of Market Regulation, to Securities Industry Association, Derivative Products Committee, dated November 21, 2005.)
